### Overview

AT&T IP Flexible Reach is a managed Voice over IP communication solution that supports inbound and outbound calling on your data network giving you local, U.S. long distance and international reach for your U.S. sites. With AT&T you gain the efficiency and economic benefits of network convergence for your organization.

AT&T deploys fully configured gateway routers at your sites that transport both voice and data traffic. IP Flexible Reach works with both premises (PBX) and hosted IP Telephony (AT&T Voice DNA<sup>SM</sup>) applications. For your TDM or IP PBX, it connects to the router and continues to support your employees' calling needs. For AT&T Voice DNA<sup>SM</sup>, your IP phones connect through the gateway router to the AT&T managed MPLS network providing the hosted IP Telephony services.

Calling Plans:

- The Long Distance Plan provides unlimited on-net calling between your VoIP-enabled sites with competitive per minute long distance and international rates
- The Local and Long Distance Plan provides unlimited on-net and local calling with competitive per minute long distance and international rates
- The Local and Long Distance Package Plan provides unlimited on-net and local calling with a long distance package that includes competitive per minute international rates

### **Why AT&T.....Why DCC??**

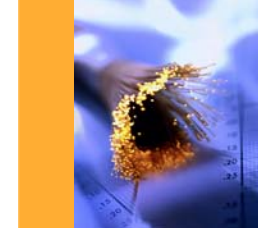

**With AT&T on your side**, you get the innovative technology and support you need today so you can focus on what really matters most – your business.

**With DCC on your side**, you get someone who will work for you to get the best pricing, installation times and promotions from the phone company!

What does your company need?? Phones, internet and data services?? Whether you are setting up a brand-new business or location, moving your office, adding services to your existing account, or you wish to come back to the local phone company from another carrier, DCC Can make it happen!

Why use an Authorized Solution Provider like DCC? It is very simple.....we offer you a much better experience than trying to get your pricing quotes, paperwork, or questions answered directly from the phone company! Here are a few reasons why many companies like yours have chosen to work directly through us for all of their telecommunications needs:

Please note: DCC is not a reseller and we do not bill our clients for any AT&T products or services, all billing will come directly from AT&T. All services that you sign up for will be directly with AT&T. What DCC will provide will be our services to facilitate quotes, paperwork preparation, order entry and implementation. Working with DCC to initiate your order, you will save time, dollars and frustration! We will ensure that you receive the lowest rates, the best promotions and discounts available.

◆ **Special promotions and discounts**

*DCC will work with the phone company to make sure you get all of the available discounts and promotions. This can make a huge difference in your final costs....a big win for your business!!*

◆ **We make it easier**

*DCC will make sure you get the right services , the right quote and the best installation times. We will simply make the whole process easier for you.*

◆ **Walking through the process**

*DCC knows how daunting a task getting new services can be at times so we are the specialists that will walk through the installation or conversation process with you. You will not be left on your own!!*

◆ **Just pick up your phone**

*DCC's dedicated representatives will always be just a phone call away. We will be there throughout the entire process, before, during and after to make sure everything is the way you need it to be!!*
